How to Disinfect After Someone in Your House Has Had COVID-19

Once your family member or loved one has successfully recovered from COVID-19, those rooms and objects they came in contact with must be properly cleaned. As we all know, depending on the surface, COVID-19 can remain viable on surfaces anywhere from a few hours to a few days. Check out this article to learn how to best keep your house healthy after recovering from the virus.

Lessons From the COVID-19 Front Lines: Clinician Perspectives

Nov. 20, 2020 | 2:00 - 3:15 p.m. ET

As COVID-19 tore across the country the brand-new disease upended life and hospital care as we know it. Hear from critical care and emergency clinicians who raced to treat patients ailing from unexpected, often mysterious symptoms, at great personal risk, without a clear road map or end to the pandemic in sight. What lessons have they learned and where do they think we must go from here?

COVID-19 Discussion Group:

The Charitable Healthcare Network is hosting a **bi-weekly** virtual discussion group for Ohio's charitable healthcare organizations. Here we will check-in with one another as well as share resources and strategies on our approach to handling the COVID-19 pandemic. Meetings will be held Wednesdays from 11am-12pm. Download the recording from our most recent meeting below or register to join live!

December 2nd, 2020 at 11 am

December 2nd, 2020 will be our **last** COVID-Call of the year! CHN staff will be sitting down with the membership to reflect on 2020 as it comes to a close. We will also discuss how we plan to stay connected as we welcome in the new (and hopefully better) 2021! Please join us for this important chat!

Would you or someone you know be interested in hosting a discussion? [Click Here](#).
